## Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

County commissions announced Monday that the new county health building at 826 Evernia Street will be dedicated at 3 p. m. Sunday, Dec. 18.

County Engineer Steve Middleton reported that the builder, Nal-Baxendale Inc. of New York has agreed to get the building completed by Dec. 15. The job is now five months behind the original schedule.

Two weeks ago, commission Chairman Paul Rardin, fuming because the health center would not be ready for opening by the end of November, threatened to call on the bonding company to get the job done.

As a result of this pressure, the contractor agreed to push the project to completion by Dec. 15. The bonding company was not called.

In other action Monday, the commission authorized Middleton to prepare an estimate of the cost of repairing the road surface and installing drainage on Southview Drive and part of Windsor Drive in Plumous City, a subdivision west of Jupiter.

Merle Kauffman, a resident of Southview Drive, complained the road outside his home has holes four feet long. He said the subdivision owner and builder refuse to put up a bond to repair the streets. Commissioners agreed to take the road over, as a county-maintained road, if the property owners there agree to pay the cost of repairs. Sixty per cent of the owners would have to sign a petition.

Commissioner Kenneth Foster said the subdivision, when constructed, did not meet county building specifications. He termed it an "eyesore" and said it has brought unfavorable publicity to the area.

The Board also: Authorized Middleton to confer with the State Road Dept. about more signs along U. S. Route 1, which would direct motorists to roads leading to scenic Route A1A. Ocean Ridge Mayor Clarence DeWalt told commissioners there are only two such signs between West Palm Beach and the south county border.

Agreed to allocate \$250 for the Veterans of Foreign Wars convention to be held in West Palm Beach June 8-11.

Approved a list of corrected personal property tax assessments.

Allocated \$7,500 of the county volunteer fire departments' budget for 12 two-way radios to be used in a fire department network. The county civil defense council will match the appropriation.

Changed the name of Herbert Road, west of Lake Worth, to Herbertz Road, at the request of residents.

Opened three bids on resurfacing of the entrance drive to Lake Ida Park.

Appointed Commissioner Lake Lytal as commission representative

on a committee to plan a Palm Beach County float for the governor's inauguration parade in Tallahassee Jan. 3.

Directed the county engineer to investigate complaints of standing water, brought on by heavy rain, at 17th Ave. and Dixie Highway, Lake Worth.

Asked the county engineer to estimate cost of installing storm sewers along NE 5th Ave. in Boca Raton.

Announced that bids will be taken on the new Glades office building Jan. 9.

## Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

**\$3 = \$4** *fourteen months faster than before*

### *The Bonds you own are better than ever, too*

The new  $3\frac{3}{4}\%$  rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra  $\frac{1}{2}\%$  from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

### **More advantages of U.S. Savings Bonds**

**You can save automatically.** Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

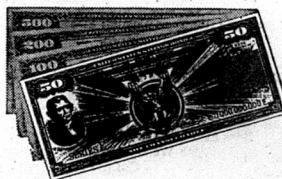

ber, the money you don't touch can't slip through your fingers.

**You can get your money, with interest, when you need it.** Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

**Your savings can't be lost or stolen.** The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

**You save more than money.** The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Start saving with U.S. Savings Bonds today. You'll save more than money.

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones you own now are better than ever*

**Q:** How does the new  $3\frac{3}{4}\%$  interest rate benefit me?

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{2}\%$  for the first year and a half; then a guaranteed  $4\%$  each year to maturity.

**Q:** When did the new rate become effective?

**A:** June 1, 1959.

**Q:** Does the new rate change the Bonds I bought before June 1, 1959?

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{2}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q:** Will the Bonds I own automatically earn their new rate?

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q:** When my E Bonds mature, will they keep on earning interest?

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q:** With the new interest rate, should I cash in my old Bonds and buy new ones?

**A:** No. The automatic  $\frac{1}{2}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q:** How are series H Bonds different from series E Bonds?

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q:** In what denominations can I buy series E and series H Bonds?

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q:** How safe are U.S. Savings Bonds?

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q:** What if my Bonds should be lost, stolen or destroyed?

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q:** Where can I buy Bonds?

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q:** How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

# Picture of a Promise

*Sure, she's a grand old flag!  
That's why we salute her.  
That's why we pledge allegiance to her.*

That pledge, in its simplest terms, is another way of saying, "Count me in. You're my country and I love you and need you. Your problems are my problems, and I'm with you all the way."

Your country's biggest single problem is the perpetual responsibility for keeping the peace its people want. You can help with this problem by remembering this:

Peace costs money. Money for military and industrial strength. Money for science and education. And money saved by individuals—by you—to help keep the economy strong. Bonds provide this money.

## Pick your savings target and shoot straight for it!

**A** home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest at 10% or 10 years and 8 months. That means a return of up to 30% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely sure and easy. Invest just \$7.50 a week for 5 years, you'll have Savings Bonds worth \$2000 or more; in 10 years, \$4400.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

## State Art Galleries Need Improvements

SARASOTA — Directors of the Ringling Museum of Art have requested \$610,000 in capital expenditures for improvements to the building housing the state-owned art galleries.

The capital expenditures request has been added to the \$400,000 annual operating budget which will go before the legislature for approval next spring.

New air conditioning, lighting and heating installations will cost \$245,000, the directors say. A new wing to house contemporary art exhibits has also been requested at the cost of \$300,000. Also included is \$250,000 for construction of a mausoleum for the bodies of John and Mable Ringling.

Curators have determined that the museum would save, between \$40,000 and \$50,000 per year in restoration costs and permanent damage to the valuable art collection with the addition of air conditioning and central heating.

## New Wire Bound Box Pleases The Yankees

Lake Shore Growers Cooperative of Belle Glade, reported this week that snap beans arriving at Northern terminals in its newly-adopted one-bushel wirebound bean crates are being "exceptionally well received."

Martin (Marty) Roth, recently appointed Lake Shore sales manager who was formerly associated with M. Roth and Sons, Chicago, for 30 years, said comments from terminal markets receiving Lake Shore beans this season indicates "condition of arrival is good with practically no damage to the produce."

The Belle Glade cooperative is packing its entire bean crop for fresh market in the one-bushel wirebound crate.

Roth said Lake Shore's switch to wirebound containers was made because "the Terminals seemed to like the wirebound better than the hamper." He drew this conclusion from a pre-season tour of the terminals in which produce packaging was discussed at length.

According to Roth, buyers expressed preference for the wirebound container "because it offers better refrigeration, easier handling and higher quality arrivals" at the market.

Lake Shore Cooperative planted 400 acres of fall snap beans and plans the same acreage for spring beans. Roth noted the fall crop has been "lighter than usual" because of excessive rains prior to planting. He termed quality "good."

The cooperative also plans to utilize wirebound crates this season for leafy vegetables such as romaine.

## Salute to FLORIDA COUNTIES

Duval County, one of the first to be formed in Florida, was created in 1822 and bears the name of Florida's first civil governor, William P. DuVal. The Metropolitan City of Jacksonville is a business transaction center for thousands of visitors each year. Jacksonville has become a major convention city, and is also fast becoming the insurance center of the South. Freighters from all over the world anchor in the city's deep water port.

In progressive Duval County, and throughout Florida, the United States Brewers Foundation works constantly to maintain the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of the people of Florida, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials.
